

## Hydramate Standard Housings

### CARTRIDGE HOUSINGS

Standard Cartridge Housings feature unique and innovative design.

#### APPLICATIONS

- Commercial
- Industrial
- Residential

#### HOUSING OPTIONS

- Available in 10" and 20" sumps in clear and opaque
- Durable polypropylene or FDA-compliant, clear Styrene-Acrylonitrile (SAN).

#### FEATURES

- Reinforced polypropylene housings have excellent chemical resistance
- Buttress threads and uniform walls for easier cartridge change and improved strength
- Optional pressure-relief/bleed button
- Leak-proof sealing with top-seated floating Buna-N o-ring
- Equipped with 3/4" NPT inlet and outlet ports
- Accommodate a wide range of 2-1/4" to 3-1/8" diameter cartridges
- Accepts standard DOE cartridges

#### CONSTRUCTION

Housing	Polypropylene (Opaque) or Styrene Acrylonitrile (Clear)
Cap	Reinforced Polypropylene
Button Assembly	300-series Stainless Steel, EPDM, and Polypropylene
O-Ring	Buna-N
Maximum Temperature	125°F (51.7°C)
Maximum Pressure	125 psi (8.62 bar)

**CAUTION:** Protect against freezing to prevent cracking of the filter and water leakage.
